Introduction

1. Brand Mission |

Star Trans's mission is to provide high-efficiency power solutions by merging industrial durability with advanced electrical engineering. We do not merely manufacture transformers; we engineer the stability that serves as the foundation for industrial progress.

2. Vision & Values |

Our vision is to become the premier global reference for integrated electrical solutions that harmonize structural strength with technical innovation.

Core Values

01 Excellence in Professionalism

02 Technological Innovation

03 Transparency & Integrity

04 Safety & Reliability

05 Flexibility & Operational Excellence

06 Teamwork & Responsibility

THE VISUAL SYSTEM

The visual system for Star Trans is built on the principle of "Structural Integrity." By using a solid, geometric typeface, we establish the brand as a powerful and reliable force in the power industry. The core of this system is the "Copper Connection," which visually bridges the engineering phase to the final delivery And the curvature in the letter 'A' adds an aesthetic touch.

Our vision

Our vision is to become the premier global reference for integrated electrical solutions that harmonize structural strength with technical innovation.

Design Concept

Our identity features strategic copper coloring on the letters "S" (Start) and "T" (Trans/End). This signifies our "Start-to-Finish" quality commitment, showing that premium copper materials and high engineering standards are present at every stage of our process.

TRANSFORMING TECHNOLOGY

Logo Anatomy

The logo comprises engineered levels: a primary wordmark where the copper-colored "S" and "T" act as brackets of quality, and a technical descriptor "TRANSFORMING TECHNOLOGY" in a geometric font

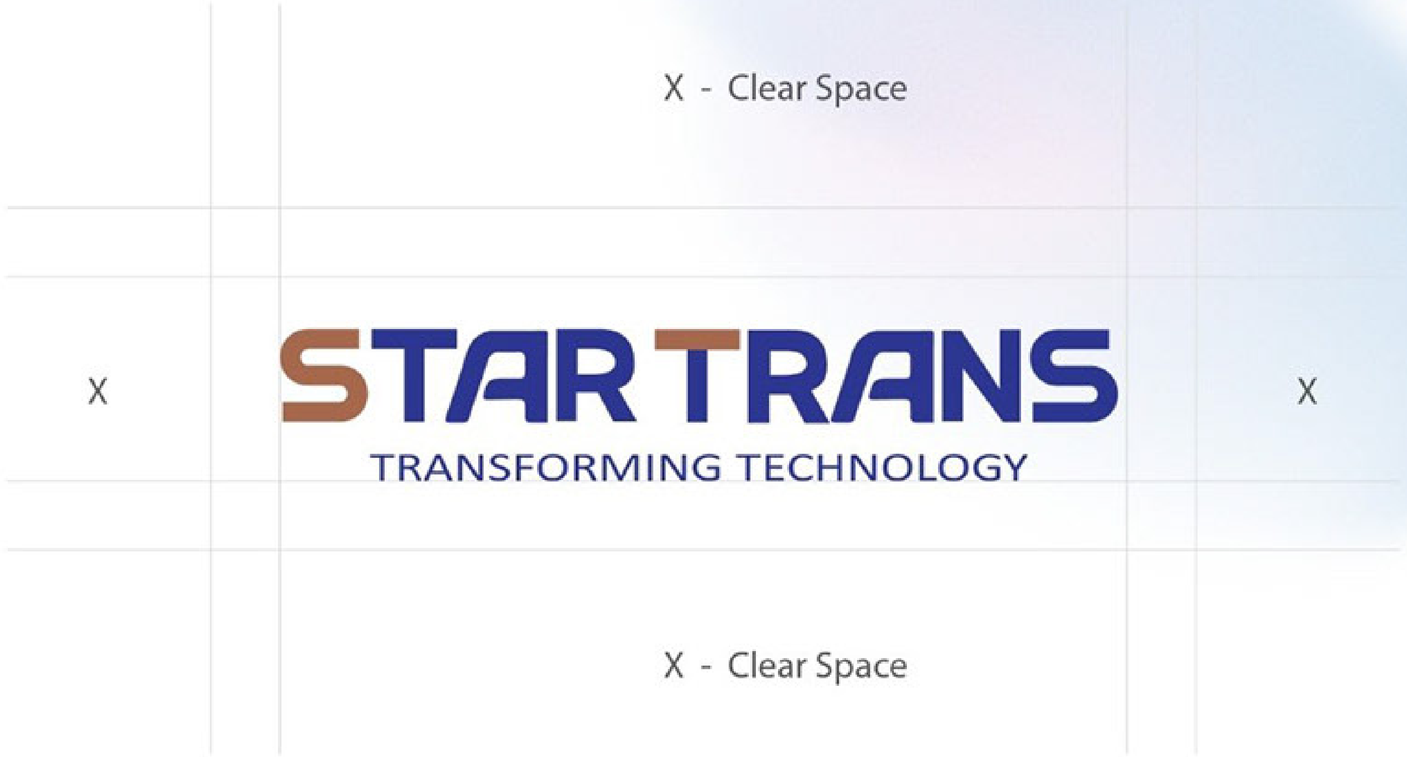

Primary Wordmark:
Structural ‘S’ and ‘T’ with metallic finish

Sector Descriptor
geometric font

Clear Space

To maintain visual impact, a mandatory clear space of 2X must be maintained on all sides, where "X" is the width of the vertical stem of the letters
